New York's Solid Vote on Credentials Report the Final Blow

Democrats Cheer Their Former Idol and Then Throw Him Aside—Dave Hill Forces the Gold Standard Upon the Party—President Roosevelt's Panama Policy Attacked.

BY JOHN S. MCGROARTY.

[BY DIRECT WIRE TO THE TIMES.]

ST. LOUIS (Mo.) July 7.—[Exclusive Dispatch.] It was the expected that happened in the Democratic National Convention today. William Jennings Bryan sang his swan song as predicted heretofore in these dispatches, and the passing of the Boy Orator of the Platte may now be chronicled with absolute certainty. Long the idol of his party, twice its candidate for the highest office within the gift of his countrymen, and once the recipient of six million of the votes of American freemen, he is now nothing more than the man that was. He is a thing of yesterday, and tomorrow will know him not. These expressions are not made of him unkindly, nor in a spirit of exultation, but are simply the recording of a fact in history of which every man may take what view he pleases.

"WINDY BILL" SPENT. That Bryan was once a living force in the affairs of the nation is known of all men, and that he was once a power to be reckoned with is also true. But these things are not more certain than that he passed from the field of battle this afternoon with trailing colors and a broken shield. He lay in the arena, thrown and wounded, and when his eyes turned to the judges, their thumbs were pointed downward. The passing of this phenomenal Nebraska man will demand more than a flippant notice from the chroniclers of the nation, for in some respects the incident has a certain pathos of its own. Today, as he lay there, gasping for life, he had brought to his aid the uttermost of his very exceptional powers as an orator. His voice was as sweet and clear and musical as ever, and rang like a silver bugle throughout that great amphitheater, echoing to its farthest recesses.

HE WAS "TRUN DOWN." As of old, he caught the people within the spell of his eloquence, hushing them to deathly silence, or rousing them to frenzied clamors at his will, and for moments it looked as though he would sweep everything before him again, as he did in the memorable convention of 1896. He put his whole fiery heart and soul into the effort. Yet it was all in vain. The galleries went into ecstasies of delight over him, and the thousands without the delegates' reservations tremble with the thunder of their cheers, but the delegates themselves sat grim, stolid and motionless.

THEY STEPPED ON HIM. Bryan, as he looked into the faces of those delegates who alone had the power to mar or to remake him, must have there read his fate. He appealed to them, but they gave no sign and, at last, when the final echo of his magic voice died away, they rose up with a cold deliberation and mercilessly crushed him under their heels.

ABUSED PARKER'S FRIENDS. The speech upon which Bryan staked his fate came about when the question of Illinois' contested seats arose in the convention. Bryan championed the contestants, and made the opportunity the occasion to regain his shattered prestige. To say the least, he used poor judgment in mixing up in a matter of that kind at all. It belittled him to meddle in an affair that could but remotely concern him, and when it was seen that he was taking advantage of the opening to vent his personal spleen and hatred on John P. Hopkins and a few other real or imagined enemies, he lost the respect of every high-minded man who listened to him.

SCORNOED THE GOLD DEMOCRATS. Bryan descended to the most commonplace vituperation, and scolded like a fishmonger. He skewered every Democrat who failed to agree with him in his financial policy. He held up gold Democrats to infinite scorn, and said that it was a disgrace for men to walk between the solid banners of them. So raved the man on for many minutes, and it was then that the passionless observer found the heart to pity him. In every fierce invective that fell from his lips, in every terrible outburst of denunciation, in every word that sprang from his inflamed soul, one could hear the moan of a tortured heart, the protest against fate, the black despair of an ambition unattained.

DEMOCRACY SPURNS HIM. It must be remembered that William J. Bryan had, twice in his lifetime, the Presidency of the United States almost within his grasp. One thinks of that glittering prize,

streets of St. Louis tonight. Little as this enthusiasm was, however, there was even less than that displayed for Willie by the members of the delegation from California. The boys seem to be souring a little on their candidate, and not without reason, as one must admit, when the cause is learned. And the cause is that an attempt has been made to assess the members of the delegation for the expenses of their headquarters in the Jefferson Hotel. There is great indignation about it, indeed. "We won't pay nothing for no room," the boys declared. "It's Hearst's show, and let him pay the bloody bill himself."

TODAY'S AGONY. Tomorrow, the great antithesis proposed to construct the platform and name the unfortunate man who are to stand upon the same. Champ Clark has succeeded Williams as presiding officer, and, as he is a Missourian, it may be that he will compel the mob of rioters who occupy outside seats to show him why they should not keep quiet. Champ is a powerful windjammer, himself, and he may be able to talk the crowd down. But "Democratic enthusiasm" is an awful hard thing to buck against.

BRYAN'S TARIFF PLANS. [BY THE ASSOCIATED PRESS.—P.M.] **ST. LOUIS, July 7.**—After considerable discussion tonight, the full Resolutions Committee adopted Bryan's tariff plank, in lieu of the one submitted by the subcommittee. It does not differ materially from the latter. The Bryan plank is short and more direct than that of the subcommittee. It declares in effect that all tariff for protection is robbery and advocates a gradual reduction along the lines that will not disturb business interests.

ANTITHESIS OF THE UNWASHED.

"CLEAN" DEMOCRACY TRIUMPHS IN ALL ITS BATTLES.

Dave Hill Summons up His "Nerve" and Administers the Gold Cure—Newlands Adds Water and the Platform Builders Swallow the Bitter Panama Pill.

BY E. E. LITTLE. [BY DIRECT WIRE TO THE TIMES.] **ST. LOUIS, July 7.**—[Exclusive Dispatch.] Clean Democracy won in every battle today, as it has won in every battle since this convention opened, but, nevertheless, not very much progress was made during the day in disposing of the serious work of the convention. Bryan was trampled upon in the convention hall, when his minority report from the Credentials Committee was crushed beneath an overwhelming vote, and he was trampled upon again before the sub-committee of the Committee on Resolutions, when his silver plank was turned down and there was inserted into the platform, instead, a sound-money plank.

DAVE HILL, "GOLD BUG." This noon, David Benesse, Hill, who, as The Times' dispatches last night said, had the controlling vote in the sub-committee to decide whether the platform should declare for sound or "wildcat" money, made up his mind to vote for sound money, and he did so. That, however, is but a single step toward getting sound money into the platform, as it must yet run through the full committee and be adopted by the convention.

TESTING HIS NERVE. When, soon after noon, Hill was asked if the money plank would be sound, rotten or wobbly, he tapped his coat pocket and said that he had a sound-money plank—a gold plank—in there, but he had not decided whether he had the "nerve" to put it into the platform or not. He summoned his nerve and after, however, and in went the gold plank. Bryan, as the time was not in the committee, as he was making a fight on the floor of the convention, but his vote would have made no difference, as Hill's deciding vote gave gold the balance of power in the committee, anyway.

WILLING TO TAKE GOLD. There is not much question that an overwhelming majority of the delegates to the convention will vote for a gold plank if the leaders finally decide to submit it to them, but meantime Bryan will make another fight on the floor of the convention, like the one he made today, and while it would be a losing fight, so far as immediate results go, it would have a bad effect upon the Democratic party in the campaign.

HAD TO TAKE WATER. Tonight finds the platform practically finished, except to put some finishing touches here and there and make a final decision on the money plank. Singularly enough, on two of the greatest public undertakings entered upon by President Roosevelt's

Tactics of the Enemy Continue a Mystery to the Czar's Men.

BY THE ASSOCIATED PRESS.—P.M.] **CHEFOO, July 7, 5:30 p.m.**—[By Asiatic Cable.] A trustworthy Chinaman who arrived here today from a point on the east coast of the Kwan Tung Peninsula, near Port Arthur, brings the information that July 5, one division of the Japanese army reached the northeast slope of Takushan Mountain, the summit of which is less than three miles from Port Arthur. This division paraded from another division of the army on the highway north of Port Arthur, after which it made its way through mountainous country.

The other division continued along the main road toward the marine camp, to reach which it will have to pass over a plain, but, attached by this division in conjunction with that on Takushan Mountain, the marine camp will not be tenable. Port No. 16, which is on the main line of the defense of Port Arthur, was taken by the Japanese, July 6. The Russian troops at Port Arthur still believe that an army is marching south to relieve them.

It has been learned here that only one division of the Japanese army under Gen. Oku occupied Kaichow. Another division of this army is marching along the old Foo Choo road, which turns to the westward at Kaichow and continues to Tinkow, the port of Newchwang. There probably will be an encounter between this latter division and Russian forces at Tinkow. This report was received from Newchwang.

A third division of Gen. Oku's army is proceeding along the east side of the railroad track and is acting in cooperation with the division which is on the railroad. The names Takushan, used in this dispatch to designate a mountain near Port Arthur, means "Lonely Mountain" and this meaning accounts for the frequent use of the word.

COMPLETE CORDON.

BY THE ASSOCIATED PRESS.—P.M.] **CHEFOO, July 7.**—Chinese who arrived here last night from Port Arthur say the Japanese forces have formed a complete cordon around the land side of the town and that they are occupying all the commanding hills, including Wolf Mountain, within a radius of seven miles of the fortifications.

SWARM ABOUT KAICHOW. [BY THE ASSOCIATED PRESS.—P.M.] **TA TCHIE KIAO, Wednesday, July 6.**—[Delayed in Transmission.] The Japanese swarmed over the mountain crests early this morning and advanced on Kaichow, compelling Gen. Chirihoff, with the center of the Russian vanguard, to fall back. A whole brigade of Japanese, with masses of cavalry, followed and occupied the village of Nanlay, driving out two companies of Russian infantry and two companies of Cossacks who were entrenched there.

The Japanese arrived within five miles of Kaichow. It was then night fall. Gen. Samsonoff made a heroic attempt to check the Japanese, galloping out with guns to shell the Japanese left. He inflicted great loss on them, but, fearing his retreat would be cut off, he fell back and is now holding Kaichow. Gen. Chirihoff's force is stationed southeast of Kaichow. The plans of the Japanese remain a mystery to the Russian commanders.

ADVANCE ON LIAO YANG.

BY THE ASSOCIATED PRESS.—P.M.] **ST. PETERSBURG, July 7.**—According to official information received by the War Office, the Japanese began their advance toward Liao Yang June 23, one column moving along the main road, and the other over the direct line, the former reaching Ouh Pang Kou, ten miles beyond Fen Shui Pass, and the latter reaching Liao Khio Pass, twelve miles northwest of Motien Pass. They halted at these points until July 3, the Russians falling back to Lang Tse Pass, thirty miles from Liao Yang. The Japanese advance guard, simul-

THE VERY LATEST.

WAR NEWS AFTER MIDNIGHT.

ST. PETERSBURG, July 7, 7:05 p. m.—The Admiralty is awaiting further details of the Russian torpedo boat destroyers to enter Port Arthur.

The Admiralty does not confirm Admiral Togo's report of the sinking of a Russian torpedo boat outside of Port Arthur, June 27. The officers point out that if the report is true, it should have been mentioned in the dispatches brought to Newchwang recently by the Russian torpedo boat destroyer Lieutenant Burukoff, which left Port Arthur the day after the alleged sinking of the torpedo boat.

The reported succession of Admiral Togo as commander of the naval forces at Port Arthur by Rear-Admiral Prince Ohtsukuma is ridiculed.

TWO COMPANIES CUT UP.

ST. PETERSBURG, July 7.—Japanese, led by Chinese guides, have hadly cut up two companies of Russian troops near the village of Afatoy. During a thick fog the Japanese surrounded and destroyed the Russian outposts. The rest of the Russians at the post after a desperate struggle cut their way through the Japanese lines, losing eighty of their men. The Japanese also lost heavily.

FIGHT ON PARKER.

Bryan-Hearst Crowd Making Rule-or-Ruin Campaign on Less Than Three Hundred Votes—Pettigrew Wants a New Party.

BY E. S. LITTLE.

[BY DIRECT WIRE TO THE TIMES.]

ST. LOUIS, July 7.—[Exclusive Dispatch.] There was held at the Planters Hotel tonight a final conference of anti-Parker people in their effort to prevent the nomination of Judge Parker for President. Bryan was not there, but he was represented by former United States Senator Pettigrew of North Dakota.

The Bryan-Hearst crowd still professes it can control sufficient votes to prevent Parker's nomination. They have quit claiming that they can force anybody else's nomination, and admit that their tactics must be purely obstructive, if they are to accomplish anything. It was shown on the floor of the convention today, in the test vote in the Illinois contest case, in which they were vitally interested, and upon which as great a fight was made as can be made on anything during the entire convention, that Bryan and Hearst controlled 299 out of 1000 votes. It takes two-thirds to nominate a President and Bryan and Hearst have already demonstrated in this test case, which they have been fighting on ever since they came to St. Louis, that they cannot and do not control one-third of the delegates, else they would have voted them today, seated their men from Illinois and so added to their strength.

In the Illinois case, too, the Parker boys could not be applied so effectively as it can be in the nominations. The Parker men will have something like five hundred or six hundred votes that they have bottled up so tight that it seems impossible for them to get away. They had no bottled delegates in the Illinois case, but they demonstrated in that case they are in control of the convention.

LOOKING FOR A CANDIDATE.

At tonight's conference, anti-Parker people for the first time turned about to look for a candidate they can put up against Parker. They did talk, it will be remembered, about Senator Gorman of Maryland, but he has slipped out from under them, as he was bound to do, and left them floundering about, trying to beat a well-organized candidate with no candidate at all. Tonight they thought that possibly with the aid of Tammany Hall of New York, they might swing enough strength to Mayor McClellan of New York to stop Parker's nomination for one or two ballots, or while States with "favorite sons" or "favorite daughters" vote for them. Most of these "favorite sons" votes are Parker votes, and will go to the New York judge finally.

It has not appeared yet that there is any sentiment at all for McClellan's nomination outside of Tammany Hall. That organization started tonight afresh to whip it up for young McClellan, but they are pulling in no outside support that has substance to it.

TALKING OF BOLLING.

Some of the Parker people are talking about bolting the Democratic ticket after Parker's nomination, but the bolt will be especially directed against the platform that is to be adopted. This platform, by the way, as it is now framed, differs in important respects only very slightly from the Republican platform.

PETTIGREW'S PLAIN.

Senator Pettigrew, who is Bryan's good friend, stood in the Planters' hotel tonight and said that if the proposed platform is adopted and Judge Parker nominated on it, there will be nothing for the Democrats who framed the Chicago platform eight years ago and the Kansas City platform four years ago but to bolt the whole business and organize a new party, to be utterly independent of both Republicans and Democrats.

"There is not room enough in this country," he said, for two Republican parties, and our party is fast becoming a second Republican party. While it is in that attitude, the Republican party will control the government. What we will believe in the Democratic party have got to do is to organize a party of our own, adopt a money, trust and tariff platform that conforms to our notions, and then nominate our men."

BRYAN WILL GO OFF.

Bryan's friends declare that he will go off from this party as sure as fate, and the whole Populist crowd will follow him. Bryan has not said openly yet what he will do.

KICKED HEARST OUT.

The Times' dispatches last night told about the efforts that were being made to fix up a deal between Hearst and Parker so they would come together and allow Hearst to get up in the p. counter if the party wins next November, and also to let

him name the Vice-Presidential candidate. These negotiations went on all last night, and today it was announced that Hearst could go to the devil, so far as the Parker people are concerned. He is still swelled up "like a poisoned pup," and thinks he can have some effect on convention affairs before the end, so it was impossible to negotiate with him. He has been kicked out into the cold world. Most of the Parker leaders became profane when the suggestion was made that he be taken into camp, and they are glad to deal with him as possible.

Little Willie will not his own horn as of old, and will not be admitted to serious Democratic councils, nor permitted to get his feet into the trough.

TURNER NOT WANTED.

[BY DIRECT WIRE TO THE TIMES.]

ST. LOUIS, July 7.—[Exclusive Dispatch.] The Vice-Presidential board of former United States Senator George Turner of Washington seems to have encountered so many difficulties today that tonight it is doubtful if it is going to be heard from seriously again, although his supporters say they will get him nominated.

The worst kick against Turner have come today, as they did yesterday, from Southern delegates. Yesterday, however, the Southern delegates only said that the nomination of any man from the Pacific Coast would be wasted energy, whereas today they are down on Turner on account of the fact that, after the war, he called a "carpet bagger," down South in those days. That discovery is more than the Southern delegates can stand.

JOHN R. WILLIAMS.

Pat McCarran said tonight that no list of Vice-Presidential possibilities would be anywhere near accurate unless the name of John R. Williams of Illinois stood at the top. This Williams must not be confused with John Sharp Williams, who was temporary chairman of this convention. John R. Williams is a member of Congress from Illinois, a man of considerable ability, but a man who, up to the present time, has attracted almost no attention in the House.

WALL LOOMS UP.

Wall of Wisconsin, who is a candidate for the Presidential nomination, has loomed up tonight as a possible candidate for the Vice-Presidency, and his Presidential boomers show signs of taking the second place for him, if they can get it. Kern of Indiana is another strong candidate.

THE PLOT.

The plot is to get some man from the Middle West in the second place on the ticket in the hope that he can pull enough votes from the Republicans to lug the Democratic ticket through to success. If this job is to be left to Williams, Wall or Kern, defeat looms dark and forbidding ahead, for no one of them is anywhere near so strong with the people of the Middle West as is Charles Warren Fairbanks of Indiana, whom the Republicans have already nominated for second place on the ticket.

Parker people say they will not press any candidate for Vice-President, but if they win for Parker, they will leave the convention free to nominate any man they may see fit, without pressure from the Parker crowd. At the same time, McCarran, Hill and Sheehan, who are Parker's managers, are all the time talking about Vice-Presidential candidates and discussing with delegates available ticket.

DIVORCED WIFE'S DEED.

DEL MONTE, July 7.—Mrs. Beale Gossie, wife of Stanley Gossie, superintendent of the Del Monte Baths, committed suicide tonight by taking cyanide of potassium. The Gossies had been divorced a few weeks ago.

Gossie, in response to a telegram from his wife, met her here this evening and told her that he was going to France. Mrs. Gossie urged her husband to allow her to return to him, and upon Gossie refusing an immediate answer to her plea, threatened to commit suicide, at the same time taking from a satchel a package of cyanide of potassium. This Gossie swallowed from her, but she had concealed three capsules under her person, and these she swallowed before her husband returned what she was doing. Death resulted in a few moments.

DECEASED WAS ABOUT 27 YEARS OF AGE AND WAS MARRIED TO GOSSIE ABOUT EIGHT YEARS AGO.

BEACH OUTING.

Seventh Jolly Annual Excursion of Broadway Department Store Employees on Eleven Cars.

The seventh annual outing of the employees of the Broadway Department Store took place yesterday, and was enjoyed by about 500 persons. Eleven cars carried down to the sea the first section of the Broadway store's big crowd. The cars were handsomely decorated in red and white and bore the well-known Broadway Department Store signs, "Watch Us Grow" and "Don't Worry." There were other noticeable placards, one of them announcing that "This is the Day the Boss Works for Us," another, "The Boss Pays All the Bills," and similar devices.

Before leaving the city the cars with their demonstrative crowd passed over several of the business streets and attracted much attention. The company was in charge of W. R. Eccleston, assisted by W. H. Kilmer.

At Long Beach everything was free for the guests of the Broadway store. The use of the pavilion had been engaged exclusively for these excursionists, and bathing privileges at the plunge were provided. In the evening the store's guests were given dinner at the principal restaurants.

A musical programme for dancing was provided for the pavilion, and a list of sporting events was carried out on the beach during the afternoon. These attracted great interest and included races for men and for ladies, sack races, three-legged races, a donkey race with no saddle and the rider to sit backward, tag of war, half-hammering contest, egg and spoon and potato races, pie-eating contest, and ending with a swimming race in the plunge.

The special cars were held at the beach until 11:15 last night, although many of the party returned to Los Angeles earlier in the evening. The Broadway Department Store makes it a point to give its employees an excursion to the beach the first Thursday the store closes during the summer period. The store will be closed every Thursday afternoon during July and August.

RUSSIA HAS THE TRUMPS.
Globe Trotter from Seat of War Says it.
Right on the Czar's Side in the Struggle.
Jerome Scott Completing Unique Journey.
Jerome Scott, a white-haired globe trotter, just from the seat of war in Korea, is a guest at the house of his relative, Dr. L. M. Powers, of No. 1500 Levee street, here.

Mr. Scott, world-wise with the accumulated experience of an observant lifetime, says Russia holds a long suit of trumps in the mighty game of war as at present played between the Czar and Mikado, and that Russia has far more justice on her side than the average man or woman realizes.

BOY CHAINED LIKE A DOG.
Child Tethered Near Kennel by Stepmother.
Singular Case of Cruelty on Pico Street.
Parents, to be Prosecuted, Say Lad is Bad.
Chained to a fence at a dog kennel in the back yard of his parents' residence, 8-year-old Harold Cron of No. 1344 South Union avenue, has had a hard time of it.

The tethered boy and his canine companion. At the top Mrs. Cron.

vious the child was chained up while the parents were away, and yesterday the case was reported to the police and Human Officer Webb. A police officer investigated and found a number of neighbors who testified the boy had been chained in the yard with the dog many times. Human Officer Webb went out and found Harold playing around the yard the length of his tether. The boy's mother was away from home and had been since 11 o'clock in the morning, the child said, when questioned.

MINNOW IN MILK BUCKET.
Attorney's View of that Deceitful "Recall."
Lid May be Lifted and Putridity Shown.
Ample Evidence of Perjury Ready to Present.
"Circumstantial evidence is sometimes unreliable, but the presence of a minnow in the milk bucket is generally considered sufficient evidence on which to convict the milkman. Whenever I read or hear of that recall petition I am reminded of the minnow in the milk."

This is the way a prominent attorney, who is a member of the Municipal League, yesterday morning expressed himself in regard to the deceitful Sixth Ward recall petition. "When this petition was first sprung," he went on, "the circulators said that it was the product of the Municipal League. We promptly got after them for that. Threats of denunciation as a falsifier had to be resorted to before the editor of the Express would stop using the league's name in connection with the petition."

THE PUBLIC SERVICE OFFICIALS.

SUMMARY OF THE DAY.

The Board of Health will ask the Council to pass a health ordinance, making many of the existing laws more stringent.

The Finance Committee yesterday declined to act on the application of the Fire Commission for additional fire fighters, installing an added expense of \$230 a month.

A saving of over \$50,000 a year in the expense of sprinkling streets is claimed by the Oiling Committee of the Council for the oil ordinance passed Monday.

The Lowe Gas Companies have been sued and attached by city and county officials for non-payment of taxes and license fees.

The grand jury reported yesterday and was discharged.

George B. Sakal, the Japanese financier, was sentenced to prison for one year.

The estates of Joseph and Louis Chosier were ordered distributed, and that is the finale of a magnificent tragedy.

C. R. Smead, proprietor of a University drug store, yesterday paid a heavy fine in the Police Court for "blatant" advertising.

(1.) Ordinance providing for the number of persons to be employed in the City Clerk's office, etc. (2.) Notice of meeting of City Board of Equalization.

These advertisements will be found on page 4, part II.

NEW ORDINANCE FOR HEALTH.

PLAN TO MAKE THE LAWS MORE STRINGENT.

Many Amendments Proposed by the City Health Officer To Change Existing Regulations—The Under-Inspection Change Caskets After Inspection—More Fire Fighters.

To make the City Health ordinances more stringent is the object of a commission and amendment of the existing ordinances being made under the direction of the health department.

Ordinances affecting the health of the city have been passed almost monthly during the last ten years.

Many of these ordinances are now being taken care of by the health department, and some that have been declared unconstitutional have been allowed to remain on the books.

Health Officer Dr. Powers asked the City Attorney to assist him in getting the scattered ordinances consolidated into a single ordinance that should cover the entire range of the city health legislation.

In making the compilation special care was taken that ordinances that have proved defective when tested in the courts be strengthened so as to perform the duty for which they were intended.

More drastic legislation is to be asked for, as follows:

More effective regulations to prevent the distribution of samples of patent medicines, especially in the residence districts.

A provision empowering the Health Officer to stop trains suspected of carrying persons afflicted with cholera, typhoid, bubonic plague, yellow fever, Asiatic cholera or typhus fever.

Provision for additional penalties for violation of the present ordinance relating to the licensing of midwives.

More thorough inspection of the condition of dead bodies which are to be shipped out of the State and of the caskets in which the bodies are to be shipped.

Controlling physicians treating cases of contagious disease to report in person to the health officer names and addresses of patients.

Provision for the punishment of physicians who move patients suffering from contagious diseases without first obtaining permits from the health officer.

Providing additional penalties for failure to convey all dead animals to the health officer for cremation within a certain number of hours after the animal's death.

More stringent regulation of the movement of persons and the passage of additional ordinances.

A general revision of the present quarantine laws making them more drastic.

GRAND JURY AFTER THE SOFT DRINK DISPENSERS.

Auto and the Small Boy Receive Attention—Notaries Public Are Scored for Late Methods and County Jailers Are Condemned—Chosier Estate Case Closed in Court.

The grand jury today heard on the auto, shaker, a stick at the soda fountain and objects to the style of some notaries.

That august body concluded its duties yesterday and was discharged. In the report submitted to the court, very hotly scored, but certain things to which the grand jury took exception are again adverted to, and one or two additional causes for public grievance are pointed out for correction.

The grand jury refers to the fact that it is almost of daily occurrence in the city or county that a team is driven by a man and a woman in some person run over and injured by an automobile. It is recommended that the city and county authorities have stringent regulations governing automobile drivers, both as to speed and stopping on signal from anyone.

That intoxicating liquor is being constantly sold to minors seems almost certain, the report, "from the cases of boys being drunk in a drunken state." The grand jury also avers that it is common talk that at many soda fountains drinks are dispensed with a stick in it, but as the jury could not very well go on a tour of detection, it is suggested that the proper officials, city and county, and also the Federal officials, have work to do in regard, both to the minors obtaining liquors and also the illegal dispensing of the same at the innocent appearing soda fountains.

LOWE COMPANIES SUED.

Trouble is trading on the heels of the Lowe Gas Companies with an insistence that must be extremely embarrassing to the ones in charge. The Independent Gas Company, the Suburban Gas Company and the Lowe Manufacturing Company have been doing a rushing credit business of late, perhaps larger than any other firm.

On similar proportions in the city. Unfortunately for the business standing of these firms, they have been the debtors. Now they are being sued to pay up.

Civil suit was yesterday filed by the City Attorney against the Independent Gas Company for the collection of \$1000 due on account of gas bills.

Attachment was yesterday levied by the County Tax Collector on the personal property of the Independent Gas Company, and the attention of the Supervisors is called to the lack of accommodation.

The Redondo jail carries the palm, however, in the opinion of the grand jury. The jail, that body says, is filthy and the inmates are badly treated.

It is recommended that the County Jail be abolished and arrangements made for the care of county prisoners in the city jail, which is small and inclement, and the attention of the Supervisors is called to the lack of accommodation.

Auto and the Small Boy Receive Attention—Notaries Public Are Scored for Late Methods and County Jailers Are Condemned—Chosier Estate Case Closed in Court.

The grand jury today heard on the auto, shaker, a stick at the soda fountain and objects to the style of some notaries.

That august body concluded its duties yesterday and was discharged. In the report submitted to the court, very hotly scored, but certain things to which the grand jury took exception are again adverted to, and one or two additional causes for public grievance are pointed out for correction.

The grand jury refers to the fact that it is almost of daily occurrence in the city or county that a team is driven by a man and a woman in some person run over and injured by an automobile. It is recommended that the city and county authorities have stringent regulations governing automobile drivers, both as to speed and stopping on signal from anyone.

That intoxicating liquor is being constantly sold to minors seems almost certain, the report, "from the cases of boys being drunk in a drunken state." The grand jury also avers that it is common talk that at many soda fountains drinks are dispensed with a stick in it, but as the jury could not very well go on a tour of detection, it is suggested that the proper officials, city and county, and also the Federal officials, have work to do in regard, both to the minors obtaining liquors and also the illegal dispensing of the same at the innocent appearing soda fountains.

LOWE COMPANIES SUED.

Trouble is trading on the heels of the Lowe Gas Companies with an insistence that must be extremely embarrassing to the ones in charge. The Independent Gas Company, the Suburban Gas Company and the Lowe Manufacturing Company have been doing a rushing credit business of late, perhaps larger than any other firm.

On similar proportions in the city. Unfortunately for the business standing of these firms, they have been the debtors. Now they are being sued to pay up.

Civil suit was yesterday filed by the City Attorney against the Independent Gas Company for the collection of \$1000 due on account of gas bills.

Attachment was yesterday levied by the County Tax Collector on the personal property of the Independent Gas Company, and the attention of the Supervisors is called to the lack of accommodation.

The Redondo jail carries the palm, however, in the opinion of the grand jury. The jail, that body says, is filthy and the inmates are badly treated.

It is recommended that the County Jail be abolished and arrangements made for the care of county prisoners in the city jail, which is small and inclement, and the attention of the Supervisors is called to the lack of accommodation.
